

Christopher Torres, Web Developer

Hutto, United States, (512) 422-1163, ctoorrsc@gmail.com

PROFILE

Experienced Web Developer with expertise in .NET platforms and related frameworks, as well as a vast array of connected tools and languages such as Microsoft's SQL Server and SSIS integrations.

Proficient in working with large amounts of data and data visualization tools, including improving efficiency of data pipelines and adding new data sources to existing pools of information.

Equipped with the most experience in C# and SQL, but have previous years of experience with a variety of Object Oriented languages and DBMS such as: Java, JavaScript, Python, C++, Ruby, NoSQL, MongoDB.

EMPLOYMENT HISTORY

Aug 2022 — Present	Web Developer, OroSolutions	Austin
Worked with financial data to create and automate Excel reports using custom C# libraries and frameworks.		
Created a variety of SQL Server projects, databases, tables and SSIS projects to automate and efficiently query incoming data, as well as safeguarding client information in the data transfer process.		
Maintained and updated legacy codebases with C# and new .NET ideologies, whilst also making new API's compatible with legacy systems to reduce site downtime.
